Subject - Addition Establishment for decoration work within Municipal limits

---

Submitted to the Municipal Commissioner The decoration of premises on marriage and other ceremonial functions with flags and buntings on applications received from the public and also during Government functions in the City, is being attended to at present by the gang of Engineering Section

This gang has to attend to the decorations in addition to the regular division works such as repairs to roads, drains, pitching etc The City has extended enormously and in consequence, the Gang work has increased abnormally It is extremely difficult for the existing gang to attend to both decorations and works of repairs etc Very frequently the services of the gang men and Suboverseers are indented upon for decorations and in consequence, the normal road repairs and other works are suspended quite to the inconvenience of general public and the gang directed to take up decoration works The result of all these is that the normal works of the department suffer tremendously

There has been also in recent years great demand from the public for decorations In the year 1944-45, 293 applications were received for decorations and they were attended to promptly

In the above circumstances, it is proposed to have a separate gang exclusively for decoration work as detailed in the enclosed statement This includes a cart also This establishment will work under the supervision of the Horticultural Inspector and attend to all decorations During off days, they will be engaged otherwise in the way of cleaning foot-paths and attending parks and gardens etc This matter may kindly be placed before the Managing Committee and the Council and their approval taken
